“What if this is as good as it gets”

- Jack Nicholson

Deluxe Coachlines is a Coach Company which aims to provide a high level of customer service to both our individual and corporate customers. Executive Coach Travel aims to provide personalised travel to suit group travel requirements. They specialise in large group movements for special events such as conferences, School groups, Melbourne Cup. They also cater for social groups and can offer extended tours around Australia. Michael has a fleet of 13 coaches which includes both large and mini coaches.

Michael started out driving as a hobby on a casual basis for a company located in Melbourne. He did this during his spare time and on weekends whilst he was running his own business Oaten’s Headlight Services. This included driving at Mt Buller during the snow season. In 2001 Michael bought his first 48 seat coach and started Executive Coach Travel. He refurbished the coach and started finding work for himself. From here he progressed to buying more coaches as the amount of work built up. In November 2009 he bought Deluxe Coachlines and now runs both companies as a joint operation.

Michael has a great love of the outdoors and will escape to the bush in his 4WD and camper trailer at any chance. He enjoys skiing, both water and snow, and travelling the world. He loves spending time with his wife and son. Also a volunteer member of two railways, one in Devonport and one at Mornington.
